

## Greg Gossel – Artist Statement

My work is about life, the struggle, and the beauty. I try to accomplish this through the interplay of many diverse words, images, and gestures. I'm interested in process – building up a surface and layering a variety of mediums; spraying, printing, splashing, erasing, dripping, and writing in a very loose and spontaneous way. When a piece is finished, I want it to illustrate a visual history of change, process, and expression.
